

Message from the President and CEO

After 30 years of providing services for our United States Military, I have realized one very important thing. They are the *Best-of-the-Best* for a reason. They are meticulous and dedicated leaders. They insist on excellence and demand success. They value discipline, organization, and loyalty. In the military, the unit comes first and men and women put their lives on the line for their team on a daily basis. I never served in the military, but I have learned a great deal from those who do by paying close attention to their unique and unwavering ethics. They are traits that are demanded on the Battlefield but often left out of the Board Room.

In today's commercial business culture, individual success is often rewarded and recognized over the goals of the team. Lack of leadership...motivation and urgency creates chaos and kills the bottom line. "**The Gemini Edge**" allows commercial industry to follow the play book of our men and women in uniform. "**The Gemini Edge**" means you run your company with the same intensity and precision of a military unit.

When my team and I work with you...you get the best.

We have a philosophy at Gemini and it is simple..."**No-Fail, No-Excuses**". What does that mean? It means we get the job done and we do it right the first time. Your success is our success and failure is never an option.

We look forward to working with you.

Victoria Bondoc
President and CEO
